BLIGHT REMEDIATION REIMAGINED
TUESDAY, MAR 10, 2026 – NOON

This webinar will present strategies to address blight through a proactive and four-pronged approach. By applying methods available to local governments and COGs, communities can reduce the number of blighted and abandoned properties in their towns. We will examine this issue through a novel lens that combines land use and zoning with redevelopment tax incentive programs, land recycling opportunities, and municipal regulations to identify new legal tools, practical advice and sample documents.
